Chandigarh, Chandigarh, India

Summary

Klevvrtech relies on a skilled Senior Video Editor to deliver high-quality, engaging content. With a strong foundation from MAAC, they utilize expertise in Adobe After Effects and color correction to enhance visual storytelling. Previous roles at Vibgyor Solution and Webroot Technologies honed their collaboration with creative teams and video production for diverse clients, shaping their ability to lead projects effectively. Leveraging technical skills and a creative background in art studies, they contribute to innovative and compelling media content.
